RE: Request for Help with Santa Monica's New Red Light Area Near SMO

Dear Santa Monica Mayor, City Council Members, and City Attorney:

Thank you for the planned closure of Santa Monica Airport. While the closure process proceeds, negative impacts are continuing and we are now requesting your assistance with resolving a new problem involving Santa Monica Airport, the FAA, and Southern California Edison (SCE). Bright red lights are now being installed on utility poles around Sunset Park and they are negatively impacting the neighborhood with persistent and invasive light pollution. Please see the attached photos below.

Background

In August 2020, red lights began to shine brightly into the Sunset Park neighborhood from utility poles in the neighborhood. The lights operate seven days a week from sunset to sunrise, even when the airport is closed. The extremely bright red light color is illuminating the exterior and interior of homes, yards, streets, and sky with a powerful red glow from dusk until dawn. More red lights are planned to be installed shortly.

A complaint was filed recently with SCE and the issue was brought to the attention of the Santa Monica Airport Staff and the Santa Monica Airport Commission. Through some rudimentary discussions and communications, we learned that the FAA determined the utility poles are an obstruction to the navigable airspace and that SCE is mitigating the purported obstruction by installing bright red lights on top of the utility poles. No documentation or public review of this issue had been presented beforehand to the impacted Sunset Park neighborhood. We question whether the utility poles are in fact an obstruction to the navigable airspace.

We respectfully request that the City take the following actions to assist Sunset Park residents:

- Contact Southern California Edison and demand that they stop operation of the lights immediately until a resolution is identified.
- Request documentation from the FAA and SCE about how they determined the utility poles are an obstruction and how they developed the plans to mitigate it.
- Request that the FAA and/or SCE hold an online public meeting to discuss this issue and present alternative solutions.

Sincerely,
Residents of Santa Monica Sunset Park

Attached Photos

Photo 1: Red light on top of utility pole but below the height of tree.

Photo 2: Red light illuminating Sunset Park neighborhood.

Photo 3: Red light illuminating the interior of a home.

Photo 4: Red light shining through windows of a home.

10/22/2020 23:42:12	Ron O'Meara	Ron@...	This airport has operated for one hundred years without red lights. please remove them! The lights are disturbing the peace around the Sunset Park Neighborhood. Since the Airport tower doesn't operate at night the plane flights are few and far (if at all) between during the night time hours.
10/22/2020 23:43:39	Ron O'Meara	Ron@...	This airport has operated for one hundred years without red lights. please remove them! The lights are disturbing the peace around the Sunset Park Neighborhood. Since the Airport tower doesn't operate at night the plane flights are few and far (if at all) between during the night time hours.
10/22/2020 23:57:51	Barbara O'Meara	Ronc...	These lights are so bright not only do they disrupt our lives, but they cause head aches, eye aches and nausea! TURN THE RED LIGHTS OFF.
10/24/2020 10:04:49	Gianluca Ventura	john_...	
10/25/2020 19:14:08	Georgia Jessup	glje...	This needs to be addressed, effects were not considered when implemented
10/25/2020 20:53:23	Joseph Owens	josn...	We have trees in the area taller than the electric power poles. There are 4KV lines stretched across the alley between 21st and 23rd streets that are higher than the poles with the red lights. These 4KV lines have been there for more than 50 years without any incidents with aircraft.

11/23/2020 13:45:44	Joseph Schmitz	js... u	To the best of my knowledge, these lights are "optional." It's unacceptably arrogant to place them with no prior coordination with residents. And to leave them on when the airport tower is closed demonstrates just how little all the entities that placed them care about residents' well-being.
